

Summer Tutoring

Dear Parents,

As the school year progresses and comes to an end, we're also excitedly making plans for the summer. We understand that parents sometimes worry about their children losing some of their academic skills while out of school for those 3 months. In an effort to ease your mind and to provide your children with some fun by exploring interesting topics over the summer, we will be offering four sessions of tutoring and enrichment classes for in-coming 1st-3rd graders.

If you're interested, Mrs. Lauren McCutcheon (experienced kindergarten, 1st grade and 2nd grade certified teacher) will be offering **45 minute tutoring sessions every Tuesday and Thursday**, throughout the whole summer. The sessions will be conducted on-campus, in a small group setting with language arts and mathematical instruction with hands-on enrichment activities and collaborative group projects. *Topics include: Literature Circles, Book Studies, Phonics Instruction, Writing Exercises, Journaling, Addition/Subtraction Practice, Number Story Problems, and Hands-On Measurement/Data Analysis projects.*

In-coming 1st- 3rd graders: Mathematic sessions will be offered on Tuesdays 8:00-8:45.

In-coming 1st- 3rd graders: Language Arts sessions will be offered on Thursdays 8:00-8:45.

Please put a check in the box(es) to indicate your preference. You may check more than one.
(A maximum of 12 students are allowed into each session).
