

Linking to Sept.

Intermediates– Ms. Jen/ Ms. Beth

Month News

We are underway with a brand new school year. The children are transitioned into their new classroom and ready to learn. During the month of September we will be talking about our homes. We will discuss the people we live with and the types of homes that we live in. Our activities will include making a blue print of our home and talking about where everything is located i.e. bedrooms, kitchen, bathrooms. We will also look at tools used to build houses such as hammers, nails and screwdrivers.

In our Spanish Unit we will review number, colors, and we will learn the terms for different family members. We will create a family portrait and label our family in Spanish.

Special Days/ Upcoming Events
