A large, stylized sun with a bright orange center and a yellow outer ring. It has several thick, yellow, rounded rays extending outwards. The sun is positioned above a green grassy field. The year "2016" is written in white, bold, sans-serif font across the center of the sun's orange core.

2016

A summer of innovation and fun for curious minds.

Welcome

As a continuation of our Links to Learning® curriculum, Preschool camp offers a fun-filled summer program for children 2 to 5. Each week preschoolers jump into action, participating in fun and exciting activities and special events.

Our preschoolers have the opportunity to expand their horizons during the summer, embarking on new adventures, and having fun! We create a summer experience that is unforgettable!

Although we want the children to have the best summer possible, we can't forget about all they've learned during the school year.

Our Links to Learning® summer curriculum is designed to review and strengthen skills taught during the school year. Various academic activities will be integrated throughout your child's daily summer experience.

Our camp program will inspire your child's mind to engage, explore, create and stay active this summer!

A summer of innovation and fun for curious minds.

WEEK 1

Budding Builders

Preschoolers become architects and designers by making models of bridges, building towers and constructing roller coasters. The possibilities are endless!

WEEK 2

Water, Water Everywhere

Campers will dive into seaside adventures and learn about ocean creatures of the deep. They will also get hands-on learning with liquid science experiments. To cool off from the summer heat, a friendly water relay will be held outside.

WEEK 3

Crafty Campers

It's time for crazy camp crafts. We let campers express themselves through new experiences such as painting on a real canvas, making beads and jewelry, and so much more.

WEEK 4

Imagination Station

Campers really tap into their brain power by participating in group storytelling sessions as well as dabbling in predictions and engineering projects. Inventions start as wild ideas!

WEEK 5

Fantastic Tales & Super Stories

Our awesome super hero campers will strengthen their super powers through group projects and peer interactions that encourage positive relationships.

WEEK 6

It's Hip to be Healthy

This week focuses on health by practicing fun exercise activities and how to fuel the body with proper nutrition. A healthy life is a happy life!

WEEK 7

Messy Mixtures & Experiments

Messy science experiences are the best kind. Our campers will be surprised to find out what goes into homemade play dough, "ooobleck," 3D sand painting and more. There will be lots to hypothesize this week.

WEEK 8

Wacky World of Sports

Campers won't want to miss our spin on sports week. Not only will we teach many new games and sports, but we will also teach new and inventive ways to play the games we already know.

WEEK 9

A Pirate's Life

Ahoy and avast, ye lubbers! Campers can weigh anchor from land as they come aboard Captain Gomer's pirate ship wearing their best pirate garb to help Gomer and his mates find buried treasure.

WEEK 10

Krazy Kitchen Chemistry

Campers can find out what happens when they put baking soda in vinegar, as we spend a week experimenting with items they can find in their own kitchen. We will create some delicious edibles and some interesting reactions.
