

# Linking to June

## Beginner's Class Program-2016

During the month of June, Room 3 Beginners will be “Welcoming Summer” and getting ready for Summer Camp!

For Language and Literacy, we will read books about the beach. We'll ask and answer “yes/no” questions and try to recognize some of the letter names in the books.

For Sensory, we will search for seashells and ocean creatures in our rice table. We'll use cups, shovels, and many other items to scoop and pour the sand.

In Dramatic Play, the theme the week of June 19th is “It's Hip to be Healthy” We'll play in the kitchen center and make healthy meals with the play food.

To help explore Music and Movement, we'll have a special guest Mr. Dave visit our school and show us many different instruments and the sounds they make and how to play them.

For Mathematics, the week of June 26th, the theme is “Fantastic Tales and Super Stories.” We'll read some very exciting books that you can count along with while reading the stories.

Along with the special guests that will visit our school during Summer Camp, we'll also start water play! We'll be sending a letter home letting you know what days your child has water play.

### Special Days & Upcoming Events
