

Linking to June

Intermediates Room 5-2016

During the month of June, Room 5 Intermediates will be exploring their 5 senses. We will study the parts of our bodies that correspond to our senses: eyes to see, ears to hear, tongue to taste and hands to touch.

For science we will be doing experiments that use our senses, helping us understand how many of our senses we use each day. We will be doing cooking projects dealing with many of our senses, especially our sense of taste.

For Creative Expressions, Wellness/ Movement and Sensory play we will be making a musical instrument and using it in our band and dancing activities. We will be listening to CDs identifying sounds and be doing a lot of songs and movement activities.

For Social- Emotional we will be talking about friendship. We will be doing group projects and working cooperatively together with friends.

For Language and Literacy we will be reading and discussing books about our senses, healthy foods and friendship.

For Dramatic Play we will engage in play connected to our stories such as Rainbow Fish which talks about friendship.

For Math we will be making patterns with healthy foods. We will be using our rainbow people for counting and to make patterns of friends holding hands.

For Citizens of the World we will locate where we live and also other countries where international friends could live. It looks to be a busy and fun month!

Special Days & Upcoming Events

6/13 First day of Summer Camp

6/14 Flag Day

6/17 Ice Cream Social

6/19 Father's Day

6/20 Summer Begins
