Your child is not in Extended Day? No problem!

Our child normally goes to carpool but you wish to register him/her for an Extended Day Club? Plan for the following:

On the scheduled program day, he/she would simply join Extended Day, instead of going to carpool.

Here, your child would have snack and then join his/her registered enrichment activity.

When the program is scheduled to end, your child will be awaiting your arrival for departure at the front desk.
