

# PRESCHOOL On-site After School Enrichment

**September 15th - October 20th**

## **6 Thursday Classes 4:00-4:45pm in Fine Arts Bldg**

- **Healthy Choices:** Children will be introduced to basic nutrition in this hands-on science workshop. They will discover what makes a healthy meal and why they need to keep eating fruits and vegetables to grow strong!
- **Adventures in Air:** Preschoolers will learn that even though air is invisible, it is all around them all the time! They will also learn that air has the power to both move items and to slow them down. They will experiment with a variety of items that rely on the air to help them move, too.
- **Listen Closely:** Children will experiment with a wave motion model and a twirling tube to help them understand that sound travels in waves and can be heard in a variety of pitches. They will have the opportunity to learn about the everyday materials that make a variety of noises for special effects in the movies and more!
- **Please Touch:** Preschoolers will learn how they understand the world with their sense of touch and that some objects are safe to touch while others are not. They will be presented with the challenge of identifying objects using only their sense of touch and experiment with an interesting and innovative material to model their very own creation!
- **Water Works:** Water is more complicated than it looks and through this exciting workshop children will learn all about the different properties of water. They will experiment with floating, sinking, absorption and so much more!
- **Sea, Sand & Surf:** Preschoolers will explore the science of the sea when they learn about what sand is made from, how shells are used by animals for protection and what animals live in the ocean. They will even make their own ocean bottle to take home.

**\$70 Registration Fee - Includes all Materials!**

**Your child is not in Extended Day? No problem!**

If your child normally goes to carpool, but you wish to register him/her for an Extended Day Club, please plan for the following:

On the scheduled program day, he/she would simply join Extended Day, instead of going to carpool.

Here, your child would join his/her registered enrichment activity and when the program is scheduled to end, your child will be awaiting your arrival for departure with his/her class.

Yes! Register My Child, \_\_\_\_\_, for MAD SCIENCE!

My INT-PRESCHOOL child is in classroom # \_\_\_\_\_ Registration Fee is \$70.00

Check # \_\_\_\_\_ payable to CBA.
