

Chesterbrook Academy - Olney

Multidisciplinary programs offered by Creative Enrichment support children in developing their passions and building friendships as they organically cultivate knowledge and a love of learning.

JumpBunch® Sports & Fitness for Kids!

New Activities for 2024

A friendly introduction to sports and fitness for preschool kids. The 30 minute sessions are packed with sports and fitness fun! Each week, JumpBunch kids have fun with a new sports or fitness activity that helps build essential skills including balance, coordination, agility, gross motor skills and hand-eye coordination.

Exercise is play, and play is fun! The best way to get kids active and engaged in youth sports and fitness is to simply make it something they want to do...and kids are always ready to play!
