Care Seat Safety in Winter

Puffy Coat Check According to Consumer Reports

Step 1: Put the coat on your child, sit him or her in the car seat and fasten the harness. Tighten the harness until you can no longer pinch any of the webbing with your thumb and forefinger.

Step 2: Without loosening the harness at all, unhook it and remove your child from the car seat. Take the coat off, put your child back in the car seat, and buckle the harness straps, which should be adjusted just as they were when the child was wearing the coat.

If you can pinch the webbing between your thumb and forefinger now, then the coat is too bulky to be worn under the harness.
