

## Early Childhood Education (Beginner – Pre-Kindergarten) ONLINE/AT-HOME Program Option (2020/2021 School Year)

### Introducing Our Early Childhood Education Online/At-Home Program Option for the Upcoming School Year

We are looking forward to welcoming all of our students safely back to our school campus for the upcoming school year. However, we recognize that, in the midst of the current environment, some of our parents may be reluctant to send their littlest ones back to school (or to school for the first time).

Therefore, we are proud to announce our Online/At-Home Early Childhood Education (ECE) alternative for our Beginner – Pre-Kindergarten students. This program will combine robust, online instruction with correlated offline activities to keep these students engaged and on-track to progress in their educational and social-emotional development. The ***ECE Online/At-Home Program*** for next school year builds on the best of our Beginner – Pre-K distance learning experience from this past school year and amplifies that with new features and enrichment. Our ***ECE Online/At-Home Program*** goals are to:

- (1) Create a virtual/at-home experience that replicates the Chesterbrook Academy on-campus experience as much as possible.
- (2) Incorporate connections to the on-campus community to ensure that the Online/At-Home Program is an extension of our school's core offerings and culture.

### Program Description

#### Curriculum

Our ***ECE Online/At-Home Program*** is built around easy-to-follow, weekly learning plans. The program content will include a combination of real-time, online interactions with teachers and other students, plus pre-recorded sessions for flexible at-home consumption, and guided at-home offline activities.

- Mirroring our on-campus curriculum, the ***ECE Online/At-Home Program*** has been designed to progressively develop specific skills appropriate to the age/program level of the child and will focus on “scaffolded” core skill development in Mathematics, Language & Literacy, Social Studies & Science, Social Emotional Learning, Creative Expression, Wellness, Digital Interaction and Citizens of the World.
- The scope and sequence of the program will be 100% aligned (week-by-week) with our on-campus program, such that if you choose to bring your child back to our in-person/on-campus school, the transition will be seamless.
