# A Place to Grow:

## *Where learning continues beyond the school day*

Our Before & After School Programs offer students enriching opportunities for discovery and exploration before and after the normal school day hours. These programs provide numerous options for fun while also reinforcing the essential lessons and values taught throughout the school day.

### Extended Day

Our Extended Day program allows busy working families the flexibility to drop-off before the school day starts and pick-up after the normal dismissal time. Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills, and to reinforce the skills they're learning during the school day, while providing plenty of time for fun with friends.

#### **Program Details:**

- Hours: 7:30 am – 5:30 pm
- Daily snack provided in Extended Day to help children stay sharp and strong in the extended hours
- Dedicated staff members with experience in working with children of all ages.
- Indoor Gym/Multipurpose Space, Art Room, Outdoor Sport Court, Playgrounds, Picnic Areas, Amphitheatre

### Clubs & Enrichment

Our Clubs and Enrichment Programs are great ways for your child to expand on their interests or pursue new passions. These can be added in conjunction with our Extended Day Program or independently. This program offers families an opportunity to enroll their student in one or more days of after school activities without leaving the convenience of our campus.

#### **Program Details:**

- Hours: Varies by Club & Enrichment
- Dedicated and specially trained staff members in specialty area.
- CBA staff member always present to assist our Expert Enrichment Vendors with supervision and program excellence.
- Students do not have to be enrolled in our monthly Extended Day program to participate in a specialty scheduled Club or Enrichment Program.

**Extended Day**

# Extended Day

*Our program is organized into five subject areas that are designed to provide your child with opportunities to learn valuable life skills and to reinforce the skills they're learning during the school day.*

Students explore the exciting world of science, technology, engineering, art and math (STEAM) through building projects, experiments, and design challenges. Sharing ideas, asking questions, and making predictions are encouraged!

Robust outdoor free play and structured games help students learn sportsmanship and develop their physical strength and endurance. Students learn critical thinking and problem solving by participating in board games and team challenges with their peers.

Students express themselves by participating in hands-on visual arts, such as drawing, crafts and collages in the Art Room. Students develop planning skills by working on long-term projects with their peers and can even participate in group performances or discussions at our outdoor amphitheater.

Social and emotional growth is nurtured through student and teacher led activities that promote a feeling of community and belonging. Students learn through open-ended activities that give them a chance to apply problem-solving skills and collaborate with friends.

Some students appreciate the chance for independent activities or study after a long day at school. We provide a quiet place to work on homework, read, journal, or seek academic support from peers and teachers. Students can also work on various projects in this small group setting.

# Clubs & Enrichment

## TENNIS TIME

Tennis Time Coaches supply everything your child needs to learn the fundamentals of tennis! This includes kid-sized rackets, foam and low compression balls, miniature tennis nets, and use of our awesome outdoor sport court! Classes highlight forehands, backhands, serves, volleys, hand-eye coordination, how to keep score, tennis games, speed and movement skills, balance and more!
