

# June Newsletter

Chesterbrook Academy

## Note from the Principal

Get ready for an awesome summer! Our teachers and staff are busy planning a fun and unforgettable experience for our students. From sports and games to arts and crafts, we have something for everyone. We will be sharing more information soon via Links 2 Home about our upcoming events and activities. As always, we are here to answer any questions or concerns you may have.

Sincerely,  
Ms Kim

## Splash days

We have several water play days planned for our students this summer and can't wait for your child to participate! Children should come to school in their swimsuit (with swim diaper when applicable) and with a towel and a change of dry clothes. Please remember to apply sunscreen to your child before you drop them off. Our scheduled splash days for June are:

- Room 1: June 26th
- Room 2: June 27th
- Room 3: June 28th
- Room 4: June 29th

## Don't forget to re-enroll for next school year!

Thank you to those families who have already secured their re-enrollment for the upcoming school year. Our classrooms are filling quickly and our teachers have already started to plan exciting new activities for next year. For those who have not yet registered, we urge you to complete the re-enrollment process as soon as possible to guarantee your child's spot for September. Please let us know if you have any questions or need a copy of the Letter of Intent form to complete for the 2023/2024 school year. Thank you for your partnership. We look forward to another year of growth, learning, and fun together!

**Cubby Fresh**

Please make sure to refresh the spare clothing in your child's cubby. Take home anything that no longer fits and leave a spare set of well-fitting, weather-appropriate clothes.

### **June 15th @ 11am- Room 5 Graduation**

remember only two guests. a zoom meeting will be sent out for other family members to view.

### **June 15th @2pm- Room 6 Graduation**

remember only two guests. a zoom meeting will be sent out for other family members to view.

### **June 19th- CBA closed**

### **June 16th- Popsicle with POPS at 3pm**

Dads please join your child for a popsicle on a hot day!

### **June 20th- Summer camp begins!!**

## **Splash-tastic Adventures: Multi-Sensory Water Activities for Preschoolers**

From splashing in puddles to playing with water toys, children love exploring the world of water. It may get messy, but the benefits are worth it. Water play serves as an excellent tool for promoting fine motor skills, hand-eye coordination, and sensory awareness, as well as opportunities for social interaction, taking turns, and sharing materials.

Our teachers leverage the fun of water to reinforce a variety of skills. For instance, students explore the science of melting ice cubes in the warm sunshine. We engage them in critical thinking by asking questions like, "What do you think will happen when we put the ice cube in the sun?" or "How long do you think it will take for the ice cube to melt?" Then, we discuss the results and encourage the students to reflect on the properties of water and the effects of temperature.

In addition to exploring the science of melting ice, we offer opportunities for students to engage in activities that tap into their desire to imitate grown-up tasks. For example, teachers may encourage

them to participate in an interactive toy car wash using a bucket of soapy water, toy cars, and a clean towel to dry. This activity reinforces fine motor skills, while instilling a sense of responsibility and independence.

Continue the learning at home with these fun water activities that can be customized for children of any age.

### 1. Water Obstacle Course

Set up an obstacle course in your backyard or a safe outdoor area using different water play stations. Include activities like crawling under a sprinkler, tossing water balloons into a bucket, and stepping over shallow trays of water. This activity promotes gross motor skills, coordination, and following instructions.

### 2. Ice Excavation

Freeze small toys or figurines in ice using plastic containers or ice cube trays. Once frozen, place the ice blocks in a large tray. Equip your child with tools like spray bottles filled with warm water, spoons, or toy hammers to melt and excavate the toys from the ice. This engaging activity encourages your child to apply problem-solving skills as they discover new ways to release their frozen treasures.

### 3. Floating Boats

Foster creativity and engineering skills while experimenting with buoyancy this summer. Challenge your child to design and build their own boats using materials like foam sheets, plastic containers, popsicle sticks, and tape. Once their boats are complete, provide a small tray or inflatable pool filled with water for a boat race. Encourage your child to use straws to create wind to make their boat move across the water.

### 4. Water Painting

Looking for a mess-free art activity this summer? Provide your child with large paintbrushes and a bucket of water. Go outside and let them “paint” on a sidewalk or fence using the water. Watch as their art creations appear and then disappear in the heat.
